CONFLICT MINERALS POLICY

The Dodd-Frank Wall Street Reform and Consumer Protection Act, Section 1502 imposes Securities and Exchange Commission (SEC) reporting requirements (17 CFR Parts 240-249(b)) upon manufacturers if their product(s) contain metals derived from minerals defined as "Conflict Minerals."

Our Supplier Code of Conduct defines our principles and commitment toward legal compliance, ethical conduct, anti-corruption, labour and environmental protection.

We want to ensure that all components, parts and materials used to manufacture our products contain minerals from conflict-free sources. We do not tolerate, or profit from, contribute to, assist with or facilitate any activity included child labour that violates human rights. We have no tolerance for corruption, money-laundering and bribery.

Gemini Gas Springs Inc. certifies that it has not provided, and will not provide, clients with any products or materials that contain such Conflict Minerals. In the event that we have reasons to believe or suspect that it may have Conflict Minerals in its products or materials, we shall immediately notify client in writing and provide basis for its knowledge or belief.
